

INTEPLAST GROUP[®]
BOPP Films

July 27, 2017

Dear Valued Customer:

Based on certification from our resin and additive suppliers, Inteplast Group BOPP certifies that all of our biaxially oriented polypropylene (BOPP) films do not contain any substance listed pursuant to the California Safe Drinking Water and Toxic Enforcement Act of 1986 (also known as Proposition 65) restrictions on “known carcinogens and reproductive toxicants.”

Inteplast Group BOPP Films will update its certification necessitated by Proposition 65 list revisions that are promulgated by the California Environmental Protection Agency (CALEPA), Office of Environmental Health Hazard Assessment (OEHHA).

This certificate includes all chemicals as of the Chemical List effective January 31, 2014 and relates only to non-printed/non-coated BOPP films as originally manufactured.

This compliance certification shall remain in full force and effect for all shipments unless and until it is revoked in writing. This certificate relates only to non-printed/non-coated polypropylene packaging films.

For and on behalf of Inteplast BOPP Films,

Valerie Kaiser
